

LAMINATE FLOOR CARE GUIDE

Practical tips to keep your floor looking new for years to come

General Cleaning

- Sweep or vacuum regularly to remove dust and grit.
- Clean with a damp microfibre mop and **laminated cleaner solution (available at iFloors Hillfox)**.
- Occasionally refresh your floor with a diluted white vinegar solution to maintain its luster and reduce allergens.

⚠ **Never use:**

- Excessive water (can cause swelling or damage)
 - Abrasive cleaners or harsh chemicals
 - “Spaghetti” mops, steam cleaners, wax, polish, or sanding
-

Stain Removal

For stubborn stains such as glue, paint, tar, chewing gum, scuff marks, or even permanent marker:

☞ Use a **laminated stain remover (available at iFloors Hillfox)**.

General Care & Maintenance

1. **Spills:** Wipe up immediately to prevent damage.
 2. **Leaks:** Regularly check areas near washing machines, sinks, doors, and windows. Make sure pipes, seals, and overflows are secure. Consider weather guards or gutters where needed.
 3. **Furniture:** Use felt protectors under chairs, tables, and heavy items—**available at iFloors Hillfox**.
